

# ONTRAK™

## GPS EQUIPMENT TRACKING

At Onsite we are committed to making our rental partnership completely transparent. That is why we have invested in our cutting-edge, GPS tracking, asset utilisation and operational usage reporting solution - ONTRAK™.

ONTRAK™ utilises industry leading GPS location technology to monitor and track your Onsite rental assets movement and general utilisation across your project site for each 24-hour period. The data is streamed live to a custom site map enabling you to pin-point exactly where the asset is.

**ONtrak™**  
GPS EQUIPMENT TRACKING & FLEET OPTIMISATION

**onsite**  
Rental Group

ONTRAK™ forms part of our Total Rental Management (TRM) digital suite. ONTRAK™ is available through your Onsite CONNECT™ portal making your rental experience even easier.

ONTRAK™ is utilised by several of Australia's largest Mining, Oil & Gas, Energy and Industrial organisations. Speak to your Account Manager today to find out more about ONTRAK™.

## ONTRAK™ BENEFITS - OPTIMISE YOUR FLEET

Following extensive customer testing ONTRAK™ focuses on solving your fundamental equipment rental 'pain points'. We have grouped these around three core areas:

### TRANSPARENCY:

- 📍 LOCATION: View your on-hire equipment location in real-time, live.
- 📍 REPORTING: ONTRAK™ compiles daily data and displays utilisation as a percentage over a defined period (i.e. a week).
- 📍 ONTRAK™ + CONNECT™: One dashboard to view all your rental activity, spend history, invoicing and active categories of equipment, both on and off hire.

### CONTROL:

- 📍 UTILISATION: View equipment usage, redistribute assets and off-hire equipment as required to reduce underutilised equipment costs.
- 📍 LIVE TRACKING: See where your equipment is, or more importantly where it should not be.
- 📍 RAW, LIVE ASSET DATA: Reports can be tailored to suite your project requirements, KPIs and outline how you can maximise asset usage.

### SAFETY:

- 📍 VISIBILITY: Live tracking enables you to identify if equipment is being used inside restricted zones.
- 📍 ACCOUNTABILITY: Accurate, real-time GPS and utilisation data highlights potential risks or equipment being used without authorisation.
- 📍 FULL-EQUIPMENT MANAGEMENT: Our GPS systems can be retrofitted to your owned plant, enabling you to track all your moveable fleet.

## CONNECT™ YOUR GATEWAY TO ONTRAK™

CONNECT™ is your dedicated web-based TRM portal, providing you with everything you need for a simple, quick and easy equipment rental experience. The best part is, it is completely free to all Onsite customers.

Your ONTRAK™ dashboard is available through CONNECT™. If you do not already have a CONNECT™ account, please speak to your Account Manager or visit the CONNECT™ section of our website to input these details and click submit. One of our dedicated digital specialists will then process your request and provide you with login details.

Your companies CONNECT™ super user can setup additional users to access your dashboard data.

### Would you like to know more?

Please visit the CONNECT™ & ONTRAK™ sections of our website [www.onsite.com.au](http://www.onsite.com.au) and fill in the 'request for call back' form or call 13 40 40 to find out more today.
