Onsite Connect®

Connect to make your hire even easier.

Onsite Connect®

Onsite Connect®: an easy to use cloud-based Total Rental Management (TRM) platform that gives you full control and optimises your on-hire equipment management. Achieve better cost control and payment efficiency. Make your rental experience even better.

WITH YOUR CONNECT PORTAL YOU CAN:

- check in on your rental equipment from anywhere, 24/7, in real time
- check all equipment that exceeds expected off-hire date
- generate rental activity reports
- manage purchase orders (expired and expiring soon)
- access paid, current, overdue and disputed invoices
- check spend history
- manage equipment between your sites
- transfer equipment between sites
- minimise duplication of equipment on sites
- improve utilisation of equipment
- access our customised dashboard which enables a high-level overview
- Access to the user-friendly portal is easily set up on all mobile devices, with unlimited coverage of sites, number of users and frequency of log-ins.

ENHANCED ALERT FEATURES AVAILABLE SOON

We're regularly finessing the features of Onsite Connect®, and we'll have enhanced alert features available soon:

- Equipment exceeded expected off-hire date
- Equipment expired Purchase Order number

Want to learn why CONNECT is used by the majority of Australia's largest mining, oil & gas, construction, industrial, infrastructure, energy, government and event organisations?
